25. Changes in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2017 were \$7,516,079. As of March 31, 2018, \$2,732,918 has been paid for incurred claims and claims adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$2,634,786 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$2,148,374 favorable prior-year development since December 31, 2017 to March 31, 2018. The increase is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.

There were no significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.
